What cool things you
find in this cave!
There are sculptures
that deceive the eye!

The items in the room
help you crack the code
from left to right.

A

Connected in thought

1. _____

2. _____

3. _____

B

RECIPE CHRISTMAS COOKIES

The last cookies
are placed on the tray
Then everything goes in
the oven to stay
With oven glove on oven glove,
Shut the oven door with love

But oh!
Your lungs begin to choke
The oven now is
full of smoke!
All is grey on the tray inside
And you look cleverly
from outside!

C

A library shelf that's full of *books!*
It's relevant where you should look
A hint of *blue* upon the wall,
Will show between the columns tall.

You know a view can alter
Depending where you stand
Your vision shouldn't falter
From the task at hand.
Look closely with a careful eye
Lest all your counting go awry.

D1

1. A & B
2. B & C
3. A & C

D2

The evidence is clear to see
that Reinhold was in search of me.

So now your job is just to fix
a pin between the circle discs.

The top of the "i" should be
the circle centre.

To find the days that
Reinhold spent here.

E

When everything is dark at night
and I sit here on my own.

I like to play a cheery tune
on my accordion.

Carefully fold back and forth
then squeeze it side to side.

A glance along the top will find
the code I try to hide.

F

Beware, you're going
downhill now
On a terrifying slide
A helmet is advisable
To keep your brains inside!
To extricate your headgear
And free it from the locks
You need three numbers
that is clear
So, think outside the *box!*
I'm sure you can put the
clue together
I'm *counting* on you to be
very clever.

G

I'm fussy how
I hang my wash
Position here is key
Don't hang them in a
random way
Or peg them carelessly.

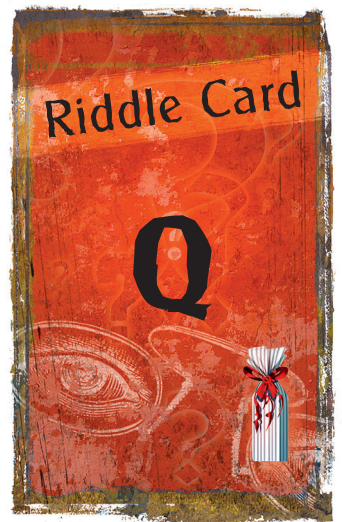

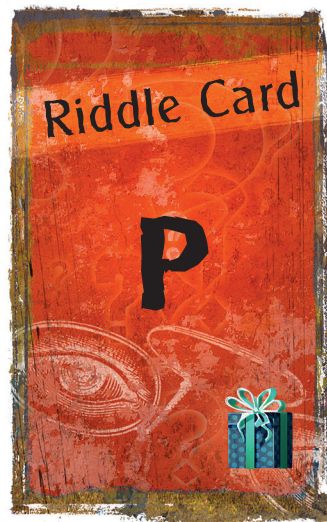

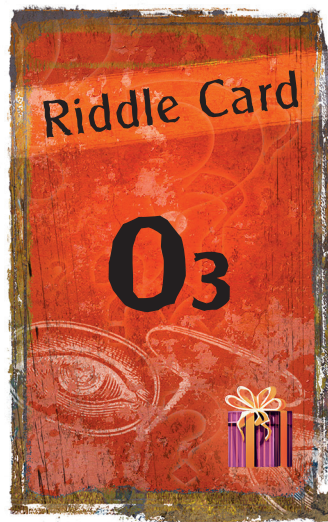

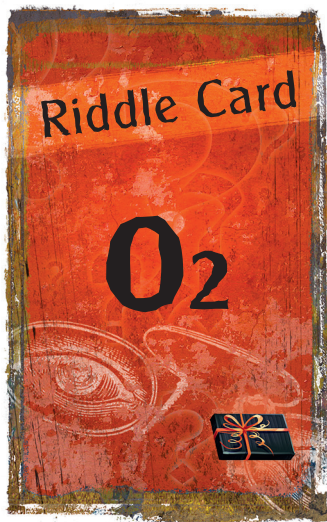

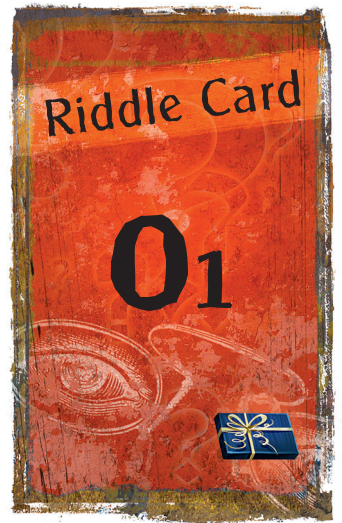

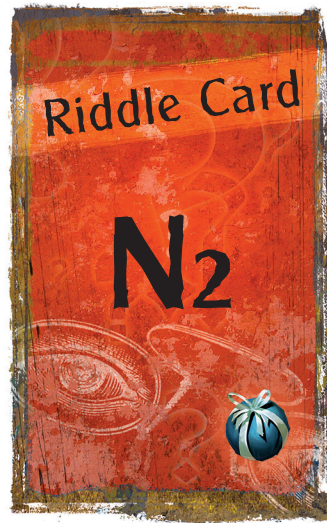

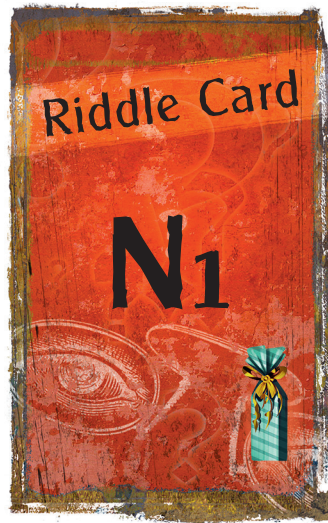

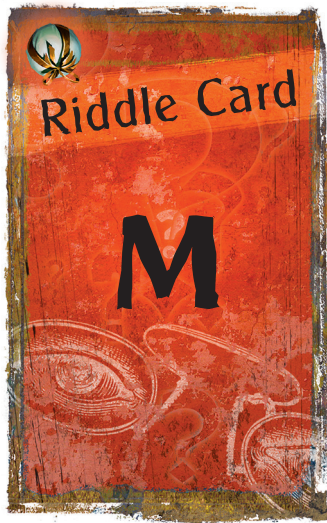

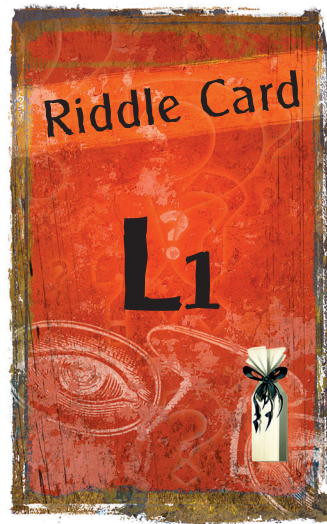

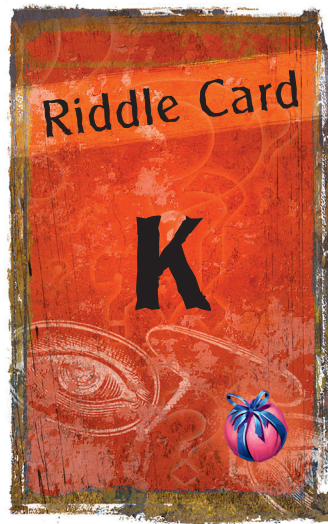

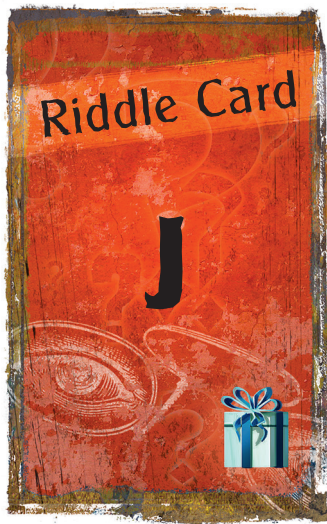

H

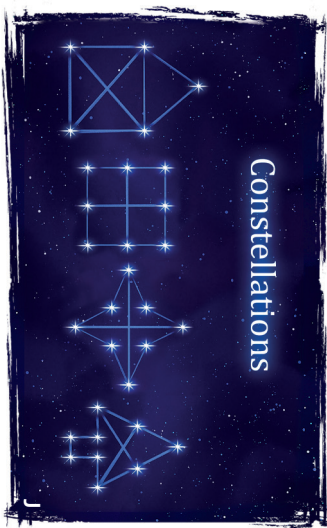

The room is dark, it's no surprise
You can't see dots before your eyes
THEIR sequence is the problem here
Solutions do not just appear
THEN digits help in time of need
So, build your code from what you read.

Constellations

Finish the inventory before Christmas:

1. Lanterns 
2. Forks 
3. Candles 

K

To find the code
 Fold the mountain
 Let your scissors
 Along the massive
 Waving flags
 Will help with what
 Sort from middle,
 And you'll be happiest

L1

you seem to lack
 fully back!
 start to slide
 mountainside.
 upon the snow
 you need to know.
 large and small
 of all.

L2

Do you want to play?

1.  =                      
2.                       
3.                      

M

Firstly, get the angle right.
 Arrow on arrow and hold it tight.
 START at the top and as you hold
 alternate strands begin to fold.
 Check your folds are very neat
 and that your coloured baubles meet.

N1

Then start from the very top
 Read around until you stop
 Letters make the words throughout
 The code you need to let you out.

N2

Here beneath you lies the sea
 Above it, ice and snow,
 But to reach the other side
 Through doodled doors
 You'll need to go
 Once you find the words in ice
 Piece together in a trice.

O1

May
 the
 best
 wishes
 go
 with
 you
 all
 this
 Christmas

O2

May
 the
 best
 wishes
 go
 with
 you
 all
 this
 Christmas

11 - 12 - 2 - 3 - 16
 11 - 12 - 1 - 4 - 6 - 15
 11 - 8 - 1 - 4 - 16

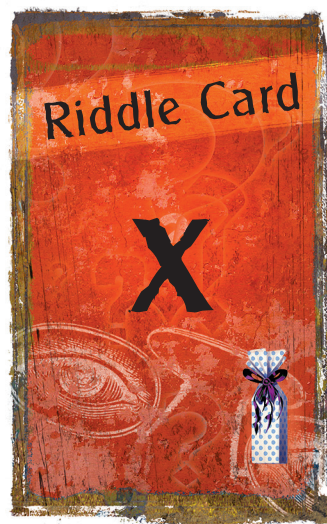

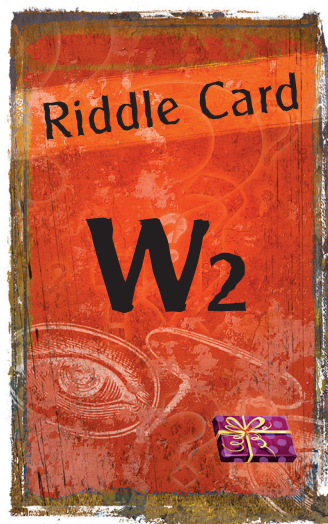

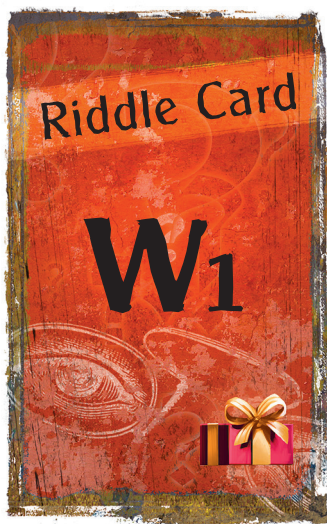

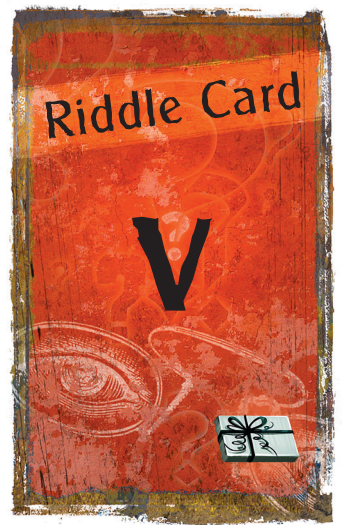

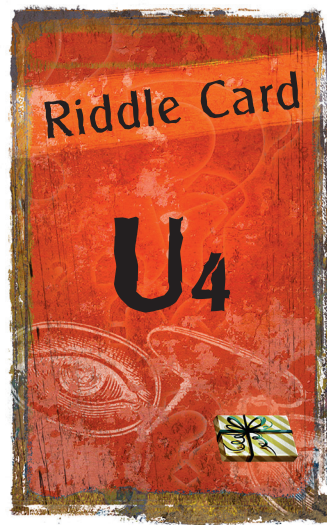

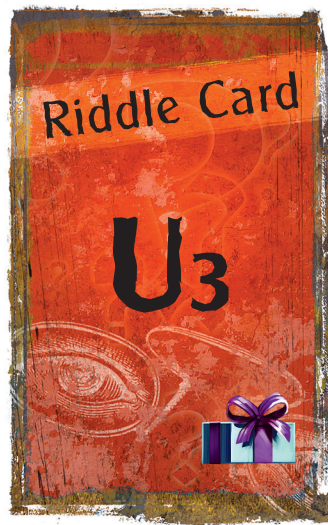

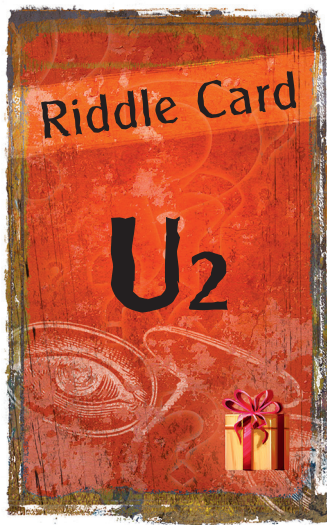

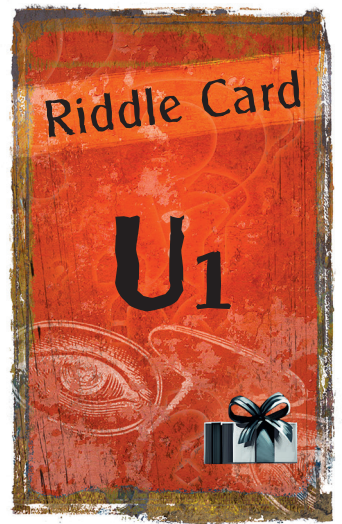

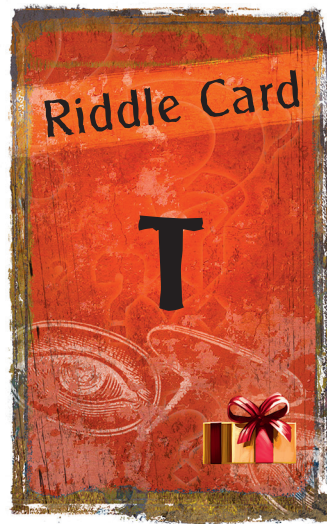

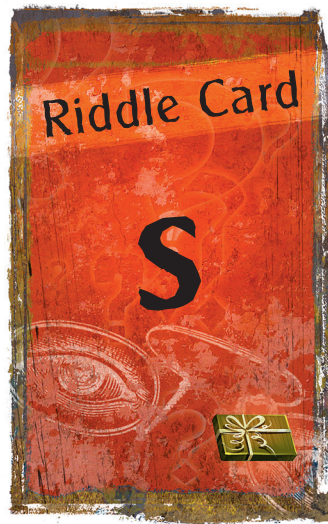

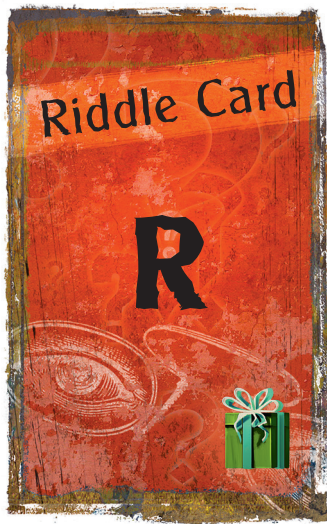

P

All these doors are
 quite a sight
 Opening from left to right
 But a difference
 you can figure
 Find the code from small...
 to bigger!

Q

What should you do
with the spade?
Listen to the plans I've laid
Hidden things are
buried away
Waiting to be
uncovered today.

V

W₁

It seems we're getting to the end
and many things will change.

The way to it is hard, my friend,
but not beyond your range.

Keep this card to find your way
don't wander from the path.

You'll know you've found the destination
if a fire burns in the hearth.

W₂

Hey, occupied!
I knew you would look in
here! Get out! This is NOT the
24th. Keep looking! Did you
think I would make it that
easy for you?

X
